

Yessine Helal

Software Engineering & Cybersecurity Student

📍 Ennasr 2, Ariana, Tunisia | ✉ yessinehelal@hotmail.com | ☎ +216 53 178 178 | 🌐 yessine.is-a.dev

Profile

Final-year Software Engineering student at FST (June 2026), with a planned two-year Cybersecurity specialization ahead. Built a national-scale medical platform for the Tunisian Ministry of Health and a browser security tool that blocks malicious PDFs before download. Looking for an internship to contribute to real products from day one.

Education

Faculty of Sciences of Tunis (FST), BSc in Software Engineering and Information Systems – Tunis, Tunisia Sept 2023 – June 2026

- **Final Year Project:** National Hemodialysis Platform, built with Spring Boot, React, PostgreSQL and JWT during a placement at CIMS

Lycée Ennasr, Bac in Experimental Sciences – Ariana, Tunisia June 2023

- Graduated with High Distinction (*Mention Très Bien*)

Projects

National Hemodialysis Platform Feb 2026 – May 2026

- Designed and developed a national platform for managing hemodialysis centers across Tunisia, commissioned by the Tunisian Ministry of Health as a final year project at CIMS (*private repository*)
- Built a secure REST API with **Spring Boot** and **JWT** modeled a normalized **PostgreSQL** database with role-based access control
- Developed a responsive **React** frontend with real-time dashboards for medical staff and administrators
- **Technologies:** Spring Boot, React, PostgreSQL, JWT

NullThreat: PDF Security Browser Extension June 2026

- Built a **Chrome extension** that intercepts PDF downloads and submits them to the **VirusTotal API** for multi-engine malware scanning before the file is saved to disk, blocking threats at the browser level
- Implemented real-time scan feedback, file quarantine logic, and user-configurable threat thresholds entirely on the client side
- **Technologies:** React, Chrome Extension API, Tailwind CSS, VirusTotal API

Skills

Soft Skills: Autonomy, Teamwork, Rigor, Problem Solving, Adaptability

Programming Languages: Python, Java, C++, C, JavaScript, TypeScript

Frameworks & Libraries: Spring Boot, React, Node.js, Flask

Databases: PostgreSQL, MySQL

Security & Tools: VirusTotal API, JWT, Chrome Extension API, Git

Web: HTML, CSS, Tailwind CSS, REST APIs

Spoken Languages: Arabic (native), French (fluent), English (fluent), German (basic)

Certifications

Introduction to Cybersecurity: Cisco Networking Academy · Jan 2026

AWS Academy Graduate: Cloud Foundations: Amazon Web Services · Dec 2025

AWS Cloud Quest: Cloud Practitioner: Amazon Web Services · Jan 2026

Fundamentals of Deep Learning: NVIDIA Deep Learning Institute · Nov 2025

Interests

Cybersecurity and tech watch, open source development, CTF competitions
